

# Cintas FAS Training Storyboard v1

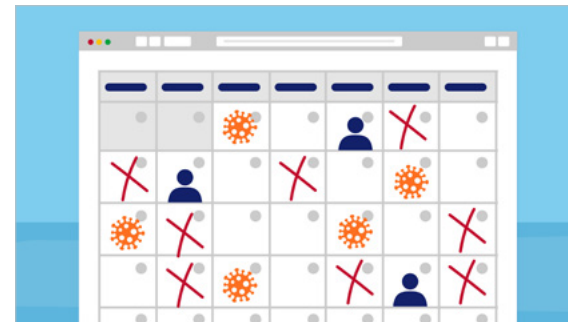

1. Safety training is your first line of defense against workplace hazards

*Animation: bubble expands with word 'safety training' animating across, flames dance, ladder falls in from right, water drips, cable sways*

2. But creating a plan can be a hassle --between sick days, new hires,

*Calendar fades in, virus symbols populate dates for 'sick days,' people icon populate dates for 'new hires'*

3. and multiple shifts-- it's nearly impossible to schedule a time that works for everybody.

*Animation: red 'X's populate more dates, increasing in speed*

4. Luckily, Cintas has a variety of training solutions to fit your unique needs.

*Animation: Cintas logo in circle fades in on dark background, lines branch out from left, circle icons pop in and lines continue to right*

5. You can choose from more than 350 safety training topics,

*Animation: Image pans left as lines move right and stop, '350+ safety training topics' zooms in*

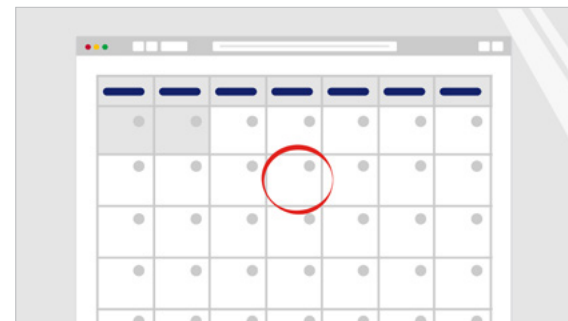

6. ranging from critical courses like CPR, First Aid, and AED

*Animation: dark background from #5 pans left again to reveal CPR section, text fades in, middle First Aid section moves in from right, text fades in, third AED section moves in from right, text fades in*

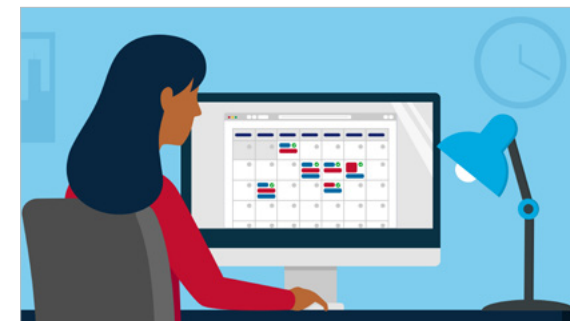

7. to more specialized content like HAZWOPER and OSHA 30-hour.

*Animation: image pans left again to reveal Hazwoper section, text fades in, right OSHA section moves in from right, text fades in*

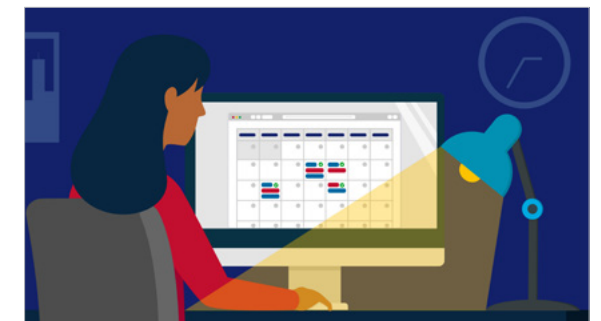

8. Then, just let us know when you want to train.

*Animation: computer monitor appears, red line circles a central date, camera begins to zoom out*

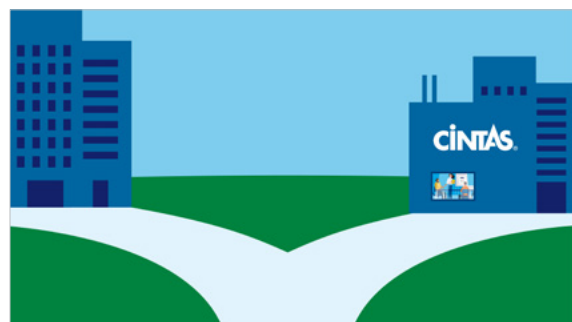

9. Using our online Training Central tool, you can see time and date availability for your local instructors or schedule training for your workforce nationwide.

*Animation: Camera zooms out to reveal scene. Schedules items populate day by day*

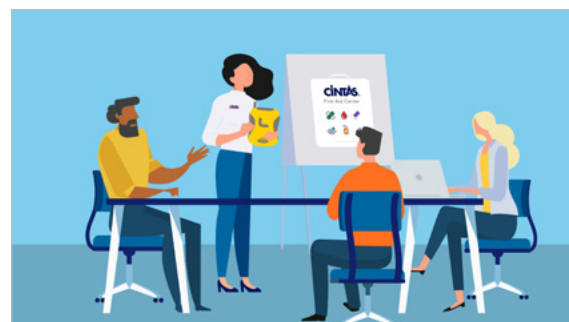

10. We'll accommodate even the most demanding schedules, including evenings and weekends.

*Animation: Blue background begins to darken, hands on clock spin quickly, light comes in from desk lamp*

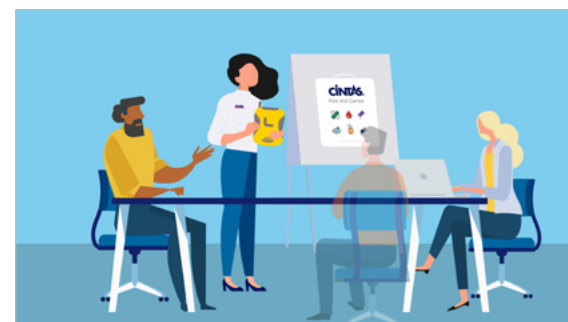

11. You can train on-site at your location or at your nearest Cintas First Aid and Safety office.

*Animation: Scene appears and road moves in and splits between two locations, zoom in on Cintas window begins*

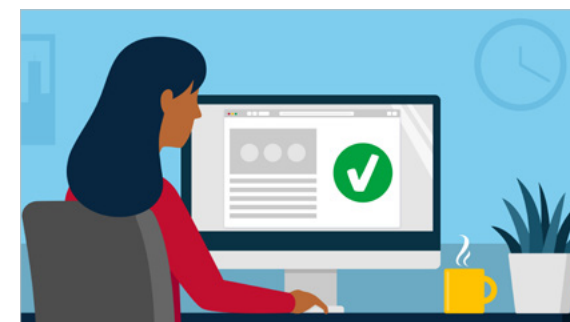

12. Our certified trainers will provide engaging instruction and hands-on practice.

*Animation: Zoomed in on window from #11, people make small movements*

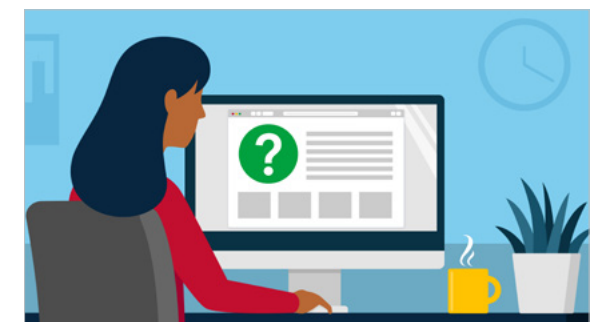

13. What if someone misses the class? No problem - we've got you covered with convenient online training too.

*Animation: Person sitting in foreground fades out*

14. Plus, Cintas makes it easy for you to track your team's training progress, create written programs,

*Animation: camera pans right to show new scene, gray items on computer screen scroll up, green check fades in*

15. and get answers to regulatory questions with our online safety management suite.

*Animation: hand moves to show mouse click, new page on monitor fades in, squares pop in one by one, green question mark fades in*

## Cintas FAS Training Storyboard v1

16. We know you care about your employees.

*Animation: monotone city appears, team animates on and makes small movements*

17. So, partner with Cintas to keep your team READY for the workday.

*Animation: team splits to the left and right side while the Cintas logo and tagline animate onto the screen*
